Editor's Note

"Every graduation marks the end of one journey and the beginning of countless new possibilities." It is with great pride and gratitude that I welcome you to Volume 4 of the Bronston Canadian Academy Kampala Graduation Magazine, published in celebration of our 6th Graduation Ceremony. This edition captures the memories, achievements, and milestones that have shaped another remarkable year in the history of Bronston Canadian Academy (BCA). Since our very first graduation in 2021, our school has continued to grow in excellence, producing confident, responsible, and globally competitive graduates who are making their mark in universities around the world.

The 2026 Cohort 7 graduating class represents determination, resilience, and academic excellence. Throughout the year, our students participated in activities that enriched both their learning and personal development, including educational trips, cultural celebrations, debates, community service, creative arts, and monthly counselling sessions. These experiences reflect our commitment to nurturing well-rounded students who are prepared for success both in and beyond the classroom.

As the Editor, I extend my deepest appreciation to our School Director, Miss Daphne Elva Bukirwa, for her unwavering commitment, visionary leadership, and continuous support. Your dedication to the school administration, genuine care for every student, and tireless efforts to see Bronston Canadian Academy grow have inspired us all. Thank you for creating opportunities that continue to transform the lives of young people through quality international education.

To prospective students, parents, and everyone reading this magazine, if you are searching for an education that prepares students for admission into leading universities across Canada, the United States, Europe, Australia, Asia, and beyond, the Ontario Secondary School Diploma (OSSD) offered at Bronston Canadian Academy Kampala is the pathway to choose. Our graduates have maintained a 100% university placement record, earning admissions into universities across Canada, the USA, the United Kingdom, Germany, Australia, Malaysia, the United Arab Emirates, Kenya, and Uganda. If your dream is to study abroad or receive an internationally recognized secondary education, there is no need to look any further. Choose Bronston Canadian Academy Kampala and begin your journey toward a future filled with endless opportunities.

As you turn the pages of this magazine, may you celebrate the achievements of our graduates, relive the memorable moments of this academic year, and discover the opportunities that the OSSD programme offers. Thank you for being part of the Bronston family. Together, we continue to build a legacy of excellence, one graduate at a time.

Ssozi George Williams

Editor, Bronston Canadian Academy Kampala
Graduation Magazine – Volume 4

Message from Director

Ms. Daphne Bukirwa

Dear Graduating Class of 2026, Distinguished Guests, Parents and Guardians, Members of Staff, and the Bronston Canadian Academy-Kampala Community, Today is a truly special day.
As we gather to celebrate the **Graduating Class of 2026**, we are not simply marking the completion of your high school education. We are celebrating your growth, your resilience, your achievements, and the beginning of a new and exciting chapter of your lives.

To the Class of 2026—congratulations!
When you first began this journey, you may not have imagined all that would happen along the way. There were lessons that challenged you, examinations that tested you, deadlines that stretched you, and moments when you had to discover strength you did not know you possessed.

Yet, here you are.
Today, you stand before your families, teachers, and friends as graduates of **Bronston Canadian Academy Kampala**; having completed the Ontario Secondary School Diploma.
Take a moment to be proud of yourselves.

Your graduation is evidence that you can set a goal, face challenges, remain committed, and reach the other side.
But remember, graduates: **this is not the end of your education. It is the beginning of lifelong learning.**

The world you are entering is changing rapidly. You will encounter new technologies, new ideas, new opportunities, and challenges that may not yet have names. Some of you will go on to university. Some will pursue professional training. Some may become entrepreneurs, artists, scientists, educators, leaders, or innovators. Others may discover passions and careers that have not yet crossed your minds.

Whatever path you choose, do not measure your success only by the position you hold or the amount of money you earn. Measure your success by the **person you become and the difference you make.**

As young people growing up in Uganda, you have a unique opportunity. You are part of a generation that can contribute to the development of our country and to the wider world.

Uganda needs young people who are educated, but also **principled.**
It needs young people who are ambitious, but also **humble.**
It needs people who are innovative, but also **responsible.**
It needs leaders who will not only ask, *"What can I gain?" but also, "What can I give?"*

Wherever life takes you, remember the values you have learned here at Bronston Canadian Academy Kampala. Let integrity guide your decisions. Let discipline shape your

habits. Let compassion influence how you treat others. And let courage give you the strength to stand for what is right, even when doing so is difficult.

Do not be afraid to fail.
Failure is not the opposite of success. Often, it is part of the journey towards success. You will make mistakes. You will experience disappointments. There will be moments when your plans do not work out as expected.
When that happens, do not give up.
Learn. Adapt. Rise again.
Graduates, I also want you to remember the people who helped you reach this day.
To your **parents and guardians**, thank you for your sacrifices, encouragement, guidance, and unwavering belief in your children. This achievement belongs to you as well.
To our **teachers and staff**, thank you for investing not only your knowledge but also your time, patience, and hearts into these young people.
And to the **Class of 2025**, thank you for being an important part of the Bronston Canadian Academy Kampala's eight year story.
You have created memories that will remain with you long after you leave these school grounds. The friendships you have formed, the lessons you have learned, the challenges you have overcome, and the experiences you have shared have all helped shape who you are today.
As you leave us, remember this:
Carry your education with you, but carry your character even further.
Carry the confidence to pursue your dreams.
Carry the humility to keep learning.
Carry the courage to try again when things do not go your way.
Carry the kindness to help others along the journey.
And carry with you the knowledge that you are capable of far more than you may currently imagine.
So, as you step beyond the gates of Bronston Canadian Academy Kampala, I challenge you to **dream boldly, work diligently, live responsibly, and serve generously.**

Class of 2025, the next chapter is yours to write.
Write it with courage.
Write it with purpose.
Write it with integrity.
Write it with excellence.
On behalf of the entire **Bronston Canadian Academy Kampala** community, I congratulate each and every one of you.
We are proud of what you have accomplished. We believe in what you can become. And we look forward to hearing about the lives you will touch, the challenges you will overcome, and the difference you will make in Uganda and beyond.

Congratulations, Class of 2026!
Sincerely

Miss. Daphne Elva Bukirwa

Message from OSSD Program Director

Mr. Ronald Omuya

Honoring Achievement, Inspiring Excellence, and Celebrating New Horizons

To Our Graduates, Parents, and the Bronston Canadian Academy Kampala Community,

It is with immense pride and great joy that I congratulate our graduating students who have successfully completed the Ontario Secondary School Diploma (OSSD) Program and earned this significant academic achievement. Today marks a remarkable milestone in your lives—a moment that celebrates your dedication, perseverance, personal growth, and commitment to excellence.

Graduation is more than a ceremony; it is a reflection of the journey that brought you here. It represents the countless hours of learning, the challenges you overcame, the assignments completed, the knowledge gained, and the determination that carried you forward. Each of you has demonstrated the discipline and resilience required to succeed in a rigorous international academic program, and today we proudly celebrate your accomplishments.

As graduates of the OSSD Program at Bronston Canadian Academy Kampala, you carry with you a qualification that opens doors to universities, colleges, and opportunities around the world. However, your greatest achievement is not only the diploma you have earned, but the skills, values, and confidence you have developed along the way. You have learned to think critically, solve problems creatively, communicate effectively, and take responsibility for your own learning, qualities that will serve you throughout your lives.

To our graduating class, I encourage you to embrace the future with courage and purpose. The world you are entering is filled with opportunities, but it also requires individuals who are adaptable, innovative, compassionate, and willing to make a difference. Do not be afraid to dream boldly, to explore new possibilities, and to challenge yourselves beyond your comfort zones.

Remember that success is not measured only by the titles you earn or the positions you hold, but by the positive impact you create and the lives you touch. Carry with you the values of integrity, respect, perseverance, and lifelong learning. Wherever your journey takes you, continue to represent yourselves, your families, and Bronston Canadian Academy Kampala with pride and excellence.

To our parents and guardians, we extend our deepest appreciation for your unwavering support and partnership. Your encouragement, sacrifices, and belief in your children have been instrumental in helping them reach this important milestone. Behind every graduate is a family that has provided love, guidance, and inspiration, and today we celebrate your contribution as well.

To the entire Bronston Canadian Academy Kampala community, thank you for your dedication to nurturing excellence and creating an environment where students are empowered to achieve their highest potential. The success of our graduates reflects the commitment of our educators, staff members, families, and partners who continue to support our vision of providing quality international education.
As we celebrate this graduating class, we look forward with confidence and excitement to the remarkable contributions they will make in universities, workplaces, communities, and the world. Today, you leave Bronston not only as graduates but as ambassadors of a learning community that believes in your potential.

Dear graduates, your diploma is a symbol of achievement, but your character will define your legacy. Continue learning, continue growing, and continue striving for excellence. The future belongs to those who are prepared to create it, and we believe you are ready to make your mark.

Congratulations on earning your Ontario Secondary School Diploma. We are proud of you, we celebrate you, and we look forward to witnessing all that you will accomplish.

May your journey ahead be filled with success, purpose, and endless opportunities.

Congratulations, Class of 2026. Your next chapter begins today.

Warmest regards,

Mr. Ronald Omuya
OSSD Program Director
Bronston Canadian Academy Kampala

BCA
BRONSTON CANADIAN ACADEMY KAMPALA

Guest of Honor Profile

Dr. Maggie Kigozi is a distinguished Ugandan physician, entrepreneur, business leader, and investment promotion expert who has made a significant contribution to Uganda's economic development. She is widely recognized for her visionary leadership, commitment to entrepreneurship, and dedication to empowering women and young people. Her successful career spans the fields of medicine, public health, business management, agriculture, and investment promotion.

Dr. Kigozi graduated with a Bachelor of Medicine and Bachelor of Surgery degree from Makerere University and later pursued further studies in public health and management. Although she began her professional journey as a medical doctor, she soon expanded her influence into business and economic development, where she achieved national and international recognition. One of her most notable achievements was serving as the Executive Director of the Uganda Investment Authority (UIA) from 1999 to 2013.

During her leadership, Uganda attracted substantial local and foreign investment, resulting in the creation of thousands of jobs and increased economic activity across the country. She played a key role in promoting Uganda as a preferred investment destination in Africa and strengthened partnerships between the government and private sector. Dr. Kigozi has also made remarkable contributions as an entrepreneur. She successfully managed and expanded several businesses, particularly in agriculture and hospitality, demonstrating the value of innovation and sound business practices. Her success in business has made her a respected role model for aspiring entrepreneurs throughout Uganda.

Another significant achievement is her contribution to women's leadership and empowerment. Through mentoring programs, public speaking engagements, and participation in various leadership initiatives, she has inspired countless women to pursue careers in business, leadership, and entrepreneurship. Her advocacy for gender equality and economic inclusion has positively influenced many communities.

Dr. Kigozi has served on numerous corporate and nonprofit boards both locally and internationally, contributing her expertise in governance, strategic planning, and organizational development. Her leadership and professional excellence have earned her several national and international awards and recognitions for outstanding service in business, investment promotion, and community development.
Among her many accomplishments, Dr. Kigozi is celebrated for transforming Uganda's investment landscape, promoting entrepreneurship, supporting economic growth, and championing women's empowerment. Her legacy continues to inspire future generations of leaders, entrepreneurs, and professionals across Africa and beyond.

Message from Student President

Timothy Kasozi Mukulu

What transforms a school into a lasting legacy is not its buildings or programs, but the people who bring it to life each day. At Bronston Canadian Academy, every conversation, breakthrough, and moment of perseverance adds to a story still being written with purpose and pride. It is with deep gratitude and humility that I welcome you to the fourth edition of the Bronston Canadian Academy Magazine. My name is Timothy Kasozi Mukulu, and I am honored to serve as Guild President for the 2025–2026 academic year. Bronston Canadian Academy is more than a place of learning; it is a family grounded in respect, diversity, compassion, and collaboration. Our multicultural community encourages students to embrace diverse perspectives while inspiring them to dream boldly, pursue excellence, and reach their full potential.

Here, every voice matters, every success is celebrated, and every challenge becomes an opportunity for growth. Reflecting on this academic year, I am grateful for all we have achieved together. Our students have excelled academically while also demonstrating outstanding talent in leadership, sports, the arts, innovation, and community engagement. These accomplishments reflect the dedication of both students and teachers, whose partnership continues to inspire excellence across all areas of school life.

One of the most rewarding aspects of my journey has been experiencing BCA's dynamic approach to learning. Our collaborative classrooms foster critical thinking, creativity, teamwork, and confident communication. Beyond academics, experiences such as sports, Cultural Day, the Global Debate, and community outreach have cultivated discipline, leadership, compassion, and global citizenship, shaping us into well-rounded individuals prepared for the future.

Serving as Guild President has been one of the greatest privileges of my life. It has taught me that true leadership is rooted in service, humility, accountability, and a sincere commitment to others. I sincerely thank my fellow students for entrusting me with the responsibility of representing your voices. Together, we have built a legacy of unity and excellence that will continue to inspire future generations. This journey would not have been possible without the unwavering support of our wider school community. My heartfelt appreciation goes to our Director for her visionary leadership and steadfast commitment to academic excellence and holistic education. I also extend sincere gratitude to our dedicated teaching and non-teaching staff for your guidance, patience, and belief in our potential. To our parents and guardians, thank you for your sacrifices, encouragement, and steadfast support, which have made our achievements possible. I also commend the editorial team and all who contributed to producing this magazine and preserving the memories of this remarkable year. As we look ahead, I encourage every student to embrace opportunities, strive for excellence, participate actively, and pursue your dreams with courage and integrity. To our graduating students, congratulations on reaching this milestone.

Carry forward the knowledge, friendships, and values you have gained at Bronston Canadian Academy, knowing you will always remain part of this family. As we turn these pages, let us remember that every achievement begins with a dream and every legacy with a step of faith. May we continue to pursue excellence, lead with integrity, serve with humility, and honor God in all we do. As Revelation 21:5 reminds us, "Behold, I am making all things new." May God richly bless Bronston Canadian Academy, every student, staff member, parent, alumnus, and all who continue to shape this remarkable institution.

With heartfelt gratitude and best wishes,

Message from Science Teacher (Chemistry/Biology)

Hello there, Ms. Sharon here as your Biology and chemistry instructor.

Biology and Chemistry are subjects that are very relatable and applicable in our daily lives. They tackle issues concerning our bodies, behavior, environment and everything we use. In areas such as nutrition, hygiene, sanitation, body wellness and health. For example, when you wake up, you choose to take a bath and brush your teeth. That's personal hygiene in biology and the items used were made using the knowledge of chemistry for example soap, toothpaste, even water has a chemical formula of H2O. After, you take breakfast, your choice of foods is dependent on your knowledge of nutrition. The food will provide you with the energy for doing your daily errands, growth and boost your immunity. At the end of the day, you'll choose to sleep. Sleep is important for rest and hormonal balance. Other than daily applications, biology and Chemistry have a very vast options of career paths. For example; human medicine, veterinary medicine, physiotherapy, nutrition, education, industrial chemistry, forensic science, medical laboratory science, zoology, pharmacy, pharmaceutical sciences, speech therapy, fisheries, environmental science, nursing, clinical psychology, psychiatry, orthopedics, biotechnology amongst others. These cover a wide range of fields from human medicine to animal medicine to nutrition to industrial Chemistry to environmental conservation.

So beyond just having knowledge on how to take care of your body, very many career doors are open for you. Here at BCA we offer you the courses in Biology and Chemistry with the best staff and resources equipment as a global citizen ready for higher education in any institution worldwide.

Why OSSD Business Courses open doors for your child

Beyond the Classroom: Why OSSD Business Courses Open Doors for Your Child

As another cohort crosses the graduation stage at Bronston Canadian Academy, I think many of you our dear parents in the audience are quietly asking about their own children career path, and which school, will prepare them for a real career? This article is written for you our dear parents as it provides a short, practical guide to the Ontario Secondary School Diploma (OSSD) and why the Business strand deserves serious consideration.

What is the OSSD?

The Ontario Secondary School Diploma is Canada's official high school qualification, recognized by universities and employers worldwide. It is earned through a credit system: students complete a defined set of compulsory and elective courses, each assessed through coursework, projects, and examinations, rather than a single high-stakes national exam. This structure rewards consistency, critical thinking, and applied skill qualities that matter far beyond the classroom.

The Business Course Units
Within the OSSD, the Business strand offers several Grade 11 and 12 credit courses, each opening a distinct academic and professional direction:

- BAT4M Financial Accounting Principles: the language of business; bookkeeping, financial statements, and analysis.
- BBB4M-International Business Fundamentals: global trade, market entry, and cross-border management.
- CPW4U-Canadian and International Politics: governance, policy, and public affairs.
- CHW3M- World History: context and analytical grounding for social science pathways.

Together, these courses build a student who can read a balance sheet, negotiate across cultures, and understand the political and historical forces that shape markets.

Where These Courses Lead
A strong Business-strand transcript is a gateway, not a dead end.

Depending on the combination chosen, graduates go on to pursue accounting and finance (CPA, ACCA, banking), international business and supply chain management, entrepreneurship and enterprise development, economics, public administration and policy, political science and international relations, and law. Universities in Canada, the United States, the United Kingdom, and East Africa consistently recognize OSSD Business credits for direct entry into these programmes.

Why Choose Bronston for Business, Specifically
Curriculum access is only half the story; delivery is the other half. At Bronston, Business students are taught in small, closely mentored groups rather than large anonymous classes. This means struggling learners are identified early through genuine, individual attention, not guesswork and supported before setbacks become permanent. Our own department records show students moving from hesitant, low-confidence beginners to confident presenters and independent researchers within a single academic term.

Equally important, Bronston's Business faculty bring real-world credibility: professional experience in monitoring and evaluation, education policy, examination setting, and enterprise management, alongside the classroom. Students are not just taught theory; they are mentored by people who apply these subjects professionally. Combined with disciplined tracking of syllabus coverage and transparent, honest reporting to parents on both academic and personal progress, Bronston offers a business pathway built on accountability, not just enrolment numbers.

Guidance for Parents Choosing a Pathway
Three practical steps will help you guide your child well. First, match subject choice to genuine interest and aptitude a child drawn to numbers thrives in BAT4M-heavy combinations; a child drawn to global affairs thrives with BBB4M and CPW4U. Second, register for accounting early; it is cumulative, and a late start (as our own data shows) slows a learner's progress relative to peers. Third, stay engaged ask for term reports, attend parent briefings, and treat attendance as non-negotiable, since irregular attendance remains the single most common cause of underperformance we observe. Graduation day is a milestone, but it is also a signal to every parent still choosing a path for their child: the right combination of curriculum, mentorship, and consistency turns a diploma into a genuine launchpad. We welcome you to visit the Business Department and see that combination for yourself.

By Ssebunya Adam,
Head of Business Department,
Bronston Canadian Academy-Kampala

Mental Health Corner

Annet Mahoro

Protect Your Mind, Build Your Future

At Bronston Canadian Academy Kampala, we believe that education is not only about academic success but also about developing healthy, confident, responsible, and well- rounded individuals. A student's mental health plays an important role in their ability to learn, build relationships, make good decisions, and achieve their dreams.

As young people preparing for a changing world, students may experience different challenges, including academic pressure, social influence, stress, and the desire to fit in. During such moments, it is important to make choices that protect your health, your goals, and your future.

The Dangers of Drug and Substance Abuse

Drug and substance abuse is one of the challenges that can negatively affect young people. Substances such as alcohol, tobacco, marijuana, and other harmful drugs can impact the body, brain, emotions, and relationships. Some students may experiment with substances because of peer pressure, curiosity, or the belief that drugs can help them escape problems. However, these choices can lead to serious consequences, including:

- Reduced concentration and poor academic performance.
- Increased anxiety, stress, and emotional struggles.
- Poor decision-making and risky behaviors.
- Damaged relationships with family, friends, and teachers.
- Loss of motivation and focus on personal goals.
- Addiction, which can affect a person's future opportunities.

At BCA Kampala, we encourage every student to understand that their mind is a valuable gift. Protecting your mental health is an important step toward achieving academic excellence and personal success.

How BCA Students Can Protect Their Mental Health

1. Make Decisions That Reflect Your Goals
Every student at BCA Kampala has dreams and aspirations. Whether your goal is to attend university, build a successful career, or make a positive impact in society, your daily choices matter. Avoid anything that can prevent you from reaching your full potential.

2. Surround Yourself with Positive Influences

The friends you choose can influence your attitudes and decisions. Build friendships with students who encourage you to learn, grow, respect yourself, and make responsible choices.

3. Find Healthy Ways to Manage Stress

Challenges are part of life, but how we respond to them makes a difference. Instead of turning to harmful substances, students can manage stress through:

- Sports and physical activities.
- Creative hobbies such as music, art, and reading.
- Spending time with supportive friends and family.
- Prayer, reflection, and mindfulness.
- Speaking with teachers, counselors, or trusted adults.

4. Do Not Be Afraid to Ask for Help

Strong individuals understand when they need support. If you are struggling with stress, anxiety, sadness, pressure, or any personal challenge, talk to someone you trust. At BCA Kampala, we believe that every student deserves encouragement, guidance, and a safe environment where they can thrive.

5. Be a Positive Influence on Others

Leadership is not only about holding a position; it is also about making good choices and inspiring others. You can make a difference by encouraging your friends to stay healthy, focused, and committed to their goals.

Your Future Begins With the Choices You Make Today

As a BCA Kampala student, you are part of a community that values excellence, integrity, and personal growth. Protecting your mental health and avoiding drug and substance abuse will help you become the confident global citizen you are meant to be.

Remember:

"Your dreams are bigger than any temporary pressure. Protect your mind, believe in yourself, and choose a future filled with purpose."

If you or a friend needs support, do not remain silent. Reach out to a trusted teacher, counselor, parent, or school leader. Seeking help is a sign of strength and responsibility.

Student Article

Making the switch from Gayaza High School, where I was studying the UNEB curriculum, to Bronston Canadian Academy's OSSD program was a big step, and honestly, one of the bravest decisions I have ever made. I joined with only nine months to complete the program, and I will be graduating in 2027, which means every single day counts. The transition was not easy at first because the learning style is completely different; instead of memorizing notes, we are expected to think critically, do our own research, and express our ideas clearly through assignments and projects. But I can tell you this, the change was worth it. The teachers at Bronston are incredibly supportive and guide us through every challenge, and the flexible online platform makes it easy to stay on track even with a tight timeline. To my fellow students, I say this: do not be afraid of the workload, just stay focused and manage your time well. And to anyone out there thinking about leaving the traditional system to join the OSSD, I encourage you to take that leap. It may feel unfamiliar at first, but the skills you gain and the global opportunities that open up are priceless. Bronston Canadian Academy has given me a second chance to shape my future, and if I can do it in nine months, so can you!

By Analisa Namirembe

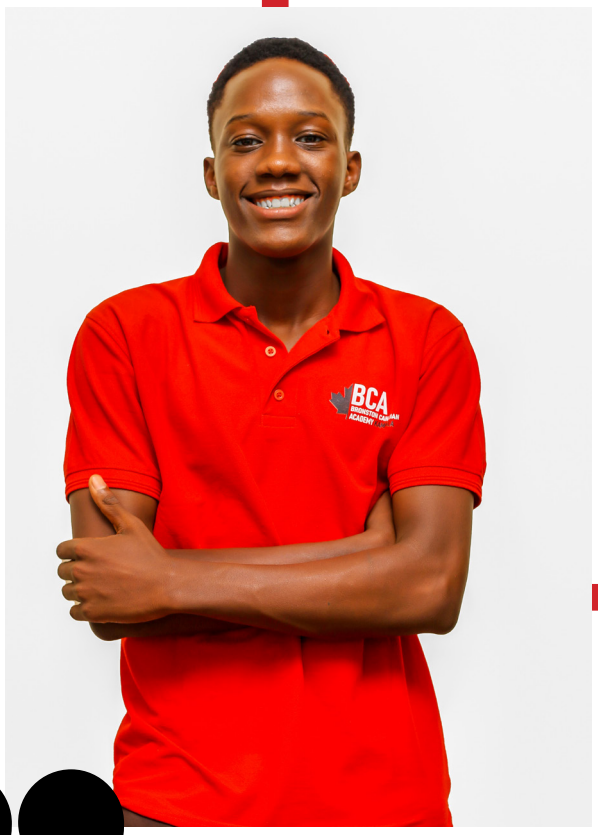

As the current Student President at Bronston Canadian Academy Kampala, I have had the privilege of learning alongside students who are determined to achieve their academic goals through the Ontario Secondary School Diploma (OSSD). My experience has taught me that success comes from attending classes consistently, completing assignments on time, and supporting one another throughout the learning journey. Every lesson is an opportunity to build the knowledge and skills needed for university and future careers.

To students who are considering joining Bronston Canadian Academy Kampala, I encourage you to take advantage of the opportunities the OSSD program provides. The school offers a supportive learning environment, dedicated teachers, and an internationally recognized education that prepares students for universities around the world. I look forward to graduating with the Class of 2027, and I invite you to begin your own journey toward academic success with us.

By Barrack Arthur, Current Student President.

Student Article

Choosing the OSSD program at Bronston Canadian Academy in Kampala has been a life- changing decision. When I started, I was nervous about the workload, but I quickly realized that this program is designed to build real understanding, not just memorization. We are pushed to think critically, ask questions, and take charge of our own learning. The teachers are always available to guide us, and the online platform makes it easy to keep up with lessons and assignments. What I appreciate most is that every task prepares us for university and beyond, teaching us time management, independent research, and how to express our ideas clearly.

To my fellow students and anyone considering joining Bronston, I say this: do not let fear hold you back. Yes, the program is challenging, but that is what makes it valuable. Stay organized, ask questions, and lean on your teachers when you need support. The OSSD is a globally recognized qualification that opens doors to top universities worldwide. Bronston provides the perfect environment to grow academically and personally. If you are ready to work hard and dream big, this is the place to be. Come join us, you will not regret it!

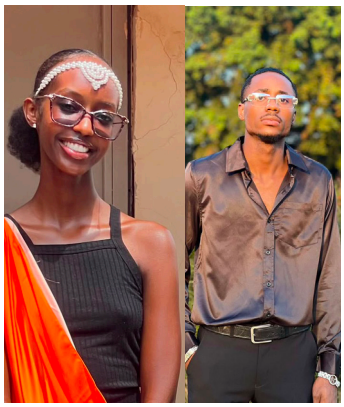

By Elijah Sserunkuuma Balaale.

Making the bold decision to leave Nabisunsa Girls School, where I was studying the Uganda National Curriculum, to join Bronston Canadian Academy's OSSD program in just nine months was both exciting and terrifying. Coming from a familiar national system to an entirely different international curriculum meant adjusting my entire way of thinking and learning, and I will be honest, the first few weeks were quite a challenge. In the UNEB system, we focused heavily on memorizing content for exams, but the OSSD is a completely different world; it pushes you to think critically, take ownership of your learning, and develop skills that actually prepare you for university and life beyond. Despite my short timeframe, I have grown so much as a student. The teachers here are always available to support us, and the online learning platform makes it easy to manage lessons and assignments, even for someone like me with limited time to complete the program. To my fellow students at Bronston, my advice is to embrace this opportunity fully, do not just go through the motions, but actually engage with the material and ask questions when something is unclear. And to anyone still sitting on the fence, wondering whether leaving the national system to pursue the OSSD is worth it, I say take the chance. Yes, it will stretch you, but that is exactly what growth looks like. Bronston has opened my eyes to global possibilities I never knew existed, and if I can make this transition in just nine months and graduate next year, so can you. Your future does not wait, so why should you?

Alumni Spotlight

Stacy Aboth Adito: Class 2024-2025

Stacy Adito Aboth is a second-year student at the University of Windsor in Ontario, Canada, where she is pursuing a Bachelor's degree in Criminology. She describes her time at Bronston Canadian Academy as one of the best years of her education. Although she was initially nervous about moving from Uganda's national curriculum to an international one, the welcoming students, supportive teachers, and caring administration made the transition smooth and enjoyable.

One of Stacy's favorite memories was taking part in a lively classroom debate during a World and Canadian Politics lesson. She appreciated that every student had the opportunity to share their ideas, making learning interactive and meaningful. She encourages current students to embrace every opportunity, stay engaged, and make the most of their time at BCA.

Kyathi Kirtikumar Class of 2024-2025

Admitted to the University of Victoria, Melbourne, Australia – Bachelor of Early Childhood Education

To all students still pursuing your OSSD, keep believing in yourself and never give up. Every assignment you complete and every challenge you overcome brings you one step closer to your dreams. Stay focused, ask for help when you need it, and always do your best.

The OSSD has opened an amazing opportunity for me, and I believe it can do the same for you. Work hard, stay positive, and trust the journey. Your future is full of possibilities, and with determination, you can achieve more than you ever imagined. I wish you all the very best in your studies and future success.

Tamale Samiku: Class of 2024-2025.

Admitted to McMaster University, Hamilton, Ontario, Canada Program: Nursing

To all students still pursuing your Ontario Secondary School Diploma (OSSD), keep believing in yourself and stay committed to your goals. Every assignment, every exam, and every challenge is preparing you for greater opportunities. Success may not always come easily, but your hard work and determination will open doors you never imagined. I am grateful that my journey has led me to McMaster University to study Nursing. If I can achieve this dream, so can you. Stay focused, ask for help when you need it, and never stop aiming higher. Your future is bright, and the effort you put in today will be worth it tomorrow. I wish you all the very best as you continue your journey.

Lakhani Siya class of 2024-2025

Admitted to Freie Universität Berlin, Germany – Bachelor of Business Computing

To all students currently pursuing your OSSD, believe in your abilities and stay committed to your goals. Every lesson, assignment, and challenge is helping you build the knowledge and confidence you need for the future. Stay curious, work hard, and never be afraid to ask questions or learn from your mistakes.

The OSSD has given me the opportunity to continue my education at Freie Universität Berlin, and I encourage you to make the most of every opportunity at Bronston Canadian Academy. Keep a positive attitude, remain focused, and trust that your hard work will open doors to amazing opportunities around the world. Wishing you every success on your journey.

Patel Chaitanya

Admitted to Toronto Metropolitan University, Toronto, Canada
Program: Aerospace Engineering

To all students currently pursuing your Ontario Secondary School Diploma (OSSD), believe in your potential and keep working toward your dreams. There will be challenges along the way, but every lesson you learn and every effort you make brings you one step closer to your goals. Stay curious, stay disciplined, and never give up.

I am proud to begin my next chapter at Toronto Metropolitan University, where I will study Aerospace Engineering. This achievement reminds me that dedication and perseverance truly pay off. Make the most of your time in school, ask questions, and keep aiming high. Your future is full of possibilities, and I wish you every success on your journey.

Nankabirwa Devine Majwega: Class of 2023-2024

My name is Devine, and I am proud to be an alumnus of Bronston Canadian Academy Kampala.

Before joining the academy, I was looking for a learning environment that would provide quality education, personal support, and opportunities for growth. At Bronston Canadian Academy, I found dedicated teachers who genuinely cared about my success and encouraged me to achieve my goals. Throughout my studies, I gained valuable knowledge, practical skills, and the confidence to face new challenges. The supportive learning environment helped me grow both academically and personally, preparing me for the next stage of my education and career.

One of the things I appreciate most about Bronston Canadian Academy is its commitment to excellence, small class sizes, and the individual attention given to every student. The staff always motivated me to work hard and believe in my potential. Today, I am grateful for the foundation that Bronston Canadian Academy gave me. The education and experiences I received continue to benefit me and have opened new opportunities for my future. I highly recommend Bronston Canadian Academy Kampala to anyone looking for quality education in a caring and supportive environment. Joining this school was one of the best decisions I have ever made. Thank you to all the teachers and staff for investing in my success.

Bronston Anthem

Composed by Nagginda Bellinda , Stacy Aboth Adito , and Nassali Precoius Lovely .

Oh, Bronston X3
An Academy of opportunity

Oh, Bronston X 3
So proud, so true
Red & white
With skies so blue

Oh, Bronston X 3
Canadian Roots,
Ugandan branch,
We learn and we grow,
Enrich what we know

Oh, Bronston X 3
We live,
We lead,
We rise each day,
Keep thy safe,
We hope and pray,

Oh, Bronston X 3
Our Home, Our Legacy.
