BCA - A Provider of Fruits of Gold

I am a former parent of this wonderful academy located in Kamwokya, a suburb in Kampala City, Uganda.

In 2020, I entrusted my daughter, Faith Immaculate Natuha, to this academy after a series of
meetings with the then Director, Mr. Samuel Musoke Majwari (RIP). At that time, the academy was located on Entebbe Road, just past Najjanankumbi on the way to Katwe.

Like anyone else, I was astonished by the miracle I witnessed later. With a dedicated
administration and staff, the impact of their actions on a child is evident through:

1. Confidence
2. Self-drive
3. Well-rounded education

Soon, my daughter Faith grew into a responsible girl, and her academic performance more than
doubled. It should be noted that I decided to bring her to this academy after she completed
Form Four at Uganda Martyrs - Namugongo, where she passed UCE with a first grade and had
been admitted for an Arts combination in the same school. Faith always aspired to pursue a
career in humanities.
With quality teaching and guidance, within a span of one year, Faith emerged as a top
student at the first graduation of the academy. This grand achievement earned her a $4000 scholarship at St. Mary's University in Halifax, Nova Scotia, Canada.

Dear parents, the foundation for your child matters. There is no doubt BCA has what it takes to support our children who aspire to study abroad. My daughter Faith graduated among the top students of that university with a first-class degree in psychology. She now works in Halifax as an Assistant Manager at Fossils Company, which deals with leather products.

As a result, I have decided to enroll three of Faith's siblings in the same academy. I cannot
ignore a winning team. The three boys hope to pursue science courses, and Victor Naturinda is already in the fourth graduate cohort for 2024, having dedicated his efforts for just two terms.

I am truly amazed by how BCA achieves this.
Earlier, in 2018, I visited the mother campus in Canada and personally witnessed and
appreciated the professionalism demonstrated. In line with this, I urge parents to trust their
children with BCA for a much brighter future of golden opportunities and achievements.

Cultural Day Celebrations at Bronston Canadian Academy

On April 22, 2024, Bronston Canadian Academy (BCA) in Kampala was awash with vibrant colors and lively festivities as students celebrated Cultural Day. This eagerly anticipated event showcased the rich diversity of the school's community, with students proudly donning their traditional Asian and African attires. Cultural Day at BCA is a cherished tradition, held every semester, that allows students to embrace and celebrate their cultural heritage.

The school grounds were transformed into a tapestry of cultures, with students parading in beautiful garments representing various ethnic backgrounds. From the intricate patterns of Asian silks to the bold and colorful prints of African fabrics, the event was a visual feast. The students not only wore their traditional outfits but also shared stories and the significance of their attire, fostering a deeper understanding and appreciation among their peers.

A highlight of the day was the much-anticipated fashion show, where students had the opportunity to vote for the best-dressed participants. This friendly competition added an element of excitement and engagement, encouraging students to put thought and effort into their cultural presentations. The winners were celebrated for their elegance, authenticity, and pride in their heritage.

Cultural Day at BCA is more than just a display of traditional clothing; it is a celebration of unity in diversity. It provides a platform for students to learn about and from each other, promoting mutual respect and cultural awareness. As BCA continues to uphold this tradition, it reinforces the importance of artistic appreciation and the beauty of our diverse world.
