# EDITORIAL

## Dear Readers,

Greetings and a warm welcome to the third edition of the Bronston Canadian Academy Kampala magazine! As we reflect on this academic year, we are filled with gratitude for a journey marked by growth, discovery, and unforgettable moments. It has been a vibrant year, one that shaped us academically, socially, emotionally, and culturally.

We kicked off the term with a joyful Welcoming Party, making our new students feel right at home. Our adventurous trip to Murchison Falls National Park was a true highlight, offering both the beauty of Uganda and the chance to bond as a school community.

Cultural Day celebrated our rich diversity through music, dance, fashion, and cuisine, reminding us that we are stronger together. On the sports field, we engaged in football, swimming, and rugby, building teamwork, resilience, and school spirit.

Our Character Day allowed students to creatively express their values and aspirations, while our visit to Esseza Cancer Care Foundation reminded us that service lies at the heart of true education. We now proudly mark a major milestone, our 5th Graduation Ceremony. Congratulations to our graduates who have completed the Ontario Secondary School Diploma (OSSD) and are heading to top universities in Canada, the USA, and Europe.

We extend heartfelt thanks to our Director, Miss Daphne Elva Bukirwa, for her visionary leadership and unwavering dedication, which continue to guide the Academy's success. To prospective families seeking quality international education in Kampala with a clear pathway to global universities, Bronston Canadian Academy Kampala is the place for you. Join us and take your first step toward a world of opportunity.

Warm regards,

*George Williams Ssozi*
Chief Editor
Bronston Canadian Academy

# MESSAGE *from* DIRECTOR

Dear Students, Parents, Staff, and Friends of Bronston Canadian Academy Kampala,

As we celebrate the graduation of the Class of 2025, I find myself reflecting on what an unforgettable group this has been — not just because of the academic achievements, but because of the spirit, creativity, and character that defined this class from day one.

This year, our students didn't just show up — they stood out. You could find them debating serious global issues one minute, and choreographing TikTok videos the next.

Among the standout moments was your meaningful work with the Eseza Foundation. I was deeply moved by how passionately our students fundraised, collected donations, and personally delivered food and essential supplies to children in need. That initiative wasn't just a project — it was a lesson in empathy, leadership, and purpose. It reminded all of us what it means to truly serve our community.

Another unforgettable milestone was Character Day — our first ever! Seeing students walk through our halls dressed as Abraham Lincoln, Michael Jackson, Frida Kahlo, and even Tupac was more than just fun; it was a powerful celebration of influence, identity, and inspiration.

We also saw our students shine on the international stage, participating in a heated debate that explored real-world issues affecting countries across the globe. The level of insight, preparation, and passion displayed was incredible. You spoke not just with intelligence, but with awareness — the kind this world desperately needs, especially now.

One of the most memorable moments this year was the educational trip to Murchison Falls in Masindi. For many of you, it was your first game drive and your first time cruising the Nile. That trip was about more than sightseeing — it was about bonding, teamwork, and experiencing the beauty of Uganda together. From team-building games, goat roasting, playing musical chairs, or serious dance-offs, you made the wild feel like home.

And of course, this year marked a huge transition: Bronston Canadian Academy Kampala Center moved to a brand new home. It was an exciting moment for all of us, and I want to sincerely thank our parents and guardians for your unwavering support through it all. You helped make the new chapter possible.

To our teachers and staff: thank you for your energy, patience, and inspiration. You were mentors, motivators, and yes — sometimes referees. But your impact on these students' lives will last far beyond these school walls.

To our parents: your love, financial support, and partnership were the backbone of this journey. We saw you at parent-teacher meetings and behind the scenes, cheering these graduates on every step of the way.

And to the graduating Class of 2025: you brought humor, courage, and heart to everything you did. You made us laugh, you made us think, and you reminded us why we love what we do. Whether you were serving others, speaking up for global justice, or dancing through the corridors, you showed up as your authentic selves. And that made all the difference.

Whatever path you choose next — university, a career — carry with you the values you've lived here: curiosity, compassion, and character.
Congratulations, Class of 2025. We will miss your light, your laughter, and yes... even your TikToks.

Warmly,

*Daphne Bukirwa*
Director, Bronston Canadian Academy-Kampala

BCA
BRONSTON CANADIAN ACADEMY KAMPALA

# MESSAGE *from* PROGRAM DIRECTOR

It is with great excitement and deep gratitude that I step into the role of Programs Director at Bronston Canadian Academy (BCA). Though, I have been with the academy since 2022, I am honoured to be a part of a community known for its commitment to academic excellence, innovation, and student-centered learning.

BCA stands at the intersection of tradition and transformation. As we prepare our students for a rapidly changing world, it is essential that our programs remain responsive, engaging, and forward-thinking. Our passionate faculty works hard to enhance curriculum delivery, integrate meaningful learning experiences, and support each student's individual path to success.

To our students: You are the heartbeat of this institution. Your curiosity, creativity, and resilience inspire everything we do. To our parents and guardians: Thank you for entrusting us with your children's education and for being valued partners in their growth.

To our faculty and support staff: We should continue building on our incredible work, sharing ideas, and creating spaces for collaborative innovation. And to our prospective students and families: Bronston Canadian Academy is more than a school—it's a vibrant learning community where potential is nurtured and futures are shaped.

Together, let us continue to champion excellence, encourage ambition, and cultivate a learning culture where every student can thrive—academically, socially, and personally.

Here's to an inspiring year ahead!

*Ronald McDonald Omuya*

**Programs Director**
**Bronston Canadian Academy**

## Director's Profile

Mr. Ronald M. Omuya is an experienced and results-driven educationist with over 14 years of expertise in teaching, mentoring, and administration within academic institutions and NGOs. He holds degrees in Education with Psychology, Public Health, and a Master's in Counseling Psychology, and is currently pursuing a PhD in Educational Psychology. Ronald is highly skilled in online learning, student support, academic management, and research. His passion for transformative education and youth development has led him to collaborate with organizations focused on empowering young people to realize their full potential.

# GUEST *of* HONOUR PROFILE

Hon. Racheal Magoola.

**Racheal Magoola is a celebrated Ugandan singer, songwriter, and politician, best known for her vibrant contribution to Afro-fusion and traditional Ugandan music.**

She rose to fame as a lead vocalist of the Afrigo Band, Uganda's longest-standing and most popular live band. With her powerful voice and energetic stage presence, Magoola became known for hit songs like Obangaina, a playful and catchy tune that became an anthem in the 1990s. She blends traditional Ugandan rhythms with modern musical styles, often singing in multiple local languages, and her music reflects a deep cultural pride and addresses social themes. Her solo career has yielded several successful albums, earning her recognition not only in Uganda but also across Africa and the diaspora.

In addition to her music, Rachel Magoola is also involved in politics, serving as a Member of Parliament in Uganda, representing Bugweri District under the ruling NRM party. She uses her platform to promote education, women's rights, and the creative arts industry. A trained music educator, Magoola studied at Kyambogo University and later pursued further training in the UK.

Her dual role as an artist and legislator has made her a role model for young Ugandan women, demonstrating how talent and leadership can combine to create a positive impact on society.

# A *Journey* OF GROWTH, UNITY, AND DISCOVERY AT BCA KAMPALA

My name is Laurent Kiiza Nahabwe, and I've had the privilege of serving as the Student President of Bronston Canadian Academy Kampala for the academic year of 2024-2025. When I first walked into BCA Kampala in early 2024 as a Grade 11 student, I had no Idea how deeply this place would shape me, not just academically, but socially and personally. Today, as I prepare to graduate with the Grade 12 Class of 2025 as the outgoing Student President, I look back with gratitude and pride at what has been one of the most important journeys of my life.

BCA is more than just a school. It is a friendly and welcoming community where everyone feels like family. From the very beginning, I was really surprised by how friendly and welcoming the students and staff were. What makes BCA different is that it is an inclusive environment where there is no sense of hierarchy among the students or discrimination. Whether you're new or have been here for years, you are respected, heard, and valued.

One of the things I appreciated most about my experience is how BCA promotes communication, teamwork, and friendship. Group projects aren't just about assignments, they're about collaboration, listening to others, and learning how to work as a team. That spirit of togetherness is seen in everything that we do, from academics to the extracurriculars. The teachers and staff at BCA deserve special mention. They aren't just educators, they are mentors, friends and supporters. Always available, patient, and deeply committed. They make learning feel less like a chore and more like a shared journey. I firmly believe that learning should be fun, and at BCA, it truly is.

The school organizes activities that mix education with interaction. Cultural Day, for example, is an activity where students proudly showcase their backgrounds through presentations on their cultural food, fashion, and traditional dances. Then there's our unique school debate program modelled after the United Nations, where students learn to research, present,

and argue global issues with confidence and maturity, something you rarely find in other educational systems. Our school trips, like the recent unforgettable one to Murchison Falls National Park, give students the chance to explore the world beyond school, learning through nature, experience, and shared joy. Community service is another practice in our student life, where we take the lead in giving back, whether its collecting donations for cancer foundations, distributing food, clothing, shoes etc, to people in need. These moments have taught me the value of empathy and responsibility.

Sport's activities are another pillar of our school. Every Friday, students take part in basketball, soccer, swimming, badminton, rugby, and athletics, helping them stay active, build resilience, and relax after a long week. Beyond academics and activities, BCA is a school that embraces and celebrates diversity. From respecting all religious holidays such as Eid celebrations with our Muslim peers, to creating an environment where every student's background is honoured, we are truly a multicultural family. I've learned just as much from my peers' cultures as I have from my classes.

Academically, the Ontario Secondary School Diploma (OSSD) curriculum is one the best I've experienced. It teaches independent learning, discipline, and self-motivation, which prepares students for university in a way that is supportive. With online portals for assignments, regular school lectures and virtual Zoom sessions even while at home, the learning is flexible. It has helped me develop a genuine love for learning and pushed me to become more self-driven. Another unique thing about BCA is the freedom of expression it gives to students through our dress code. We are allowed to wear our own clothes, which seem like a small detail, but to me, it has a big impact. It promotes confidence, responsibility, and individuality, while maintaining decency.

Smaller size classes have also made a huge difference. I had more one on one time with teachers, which built my confidence and helped me understand concepts better. The supportive environment allowed me to grow not only as a student but as a leader. Serving as Student President for the 2024-2025 academic year was a true honor. Together with my fellow student leaders, we made positive changes and built a stronger community. I leave this role with joy, knowing that we made an impact.

To any parents or students reading this, if you are looking for a school that goes beyond academics, one that nurtures the whole person, promotes leadership, values diversity, and truly prepares students for university abroad and life beyond, then BCA Kampala is the right place. The curriculum is truly top-tier, the environment is safe, and the experience is life changing.

As I prepare for the next chapter of my journey, I carry with me not only the knowledge and skills I've gained but also the memories, friendships, and lessons that will stay with me forever. I have no regrets joining BCA, and it has made me a better, stronger, and more focused person.

Congratulations to the Class of 2025. May the journey ahead be as fulfilling as the one we've shared here. And to the future students of BCA, your story is just the beginning. Write it well.

*Laurent Kiiza Nahabwe*
Students President 2025

# STUDENTS *Articles*

Bronston Canadian Academy is not your usual school; it's an experience like no other! From the moment you walk through the doors, you're welcomed into a nurturing atmosphere with a truly special community. Everyone, from students to staff, embraces a spirit of warmth, support, and genuine care for one another. Not forgetting, the OSSD curriculum, staying on top of your studies is a breeze, even if you can't be there in person, however, you must not forget to be self-driven. Being part of BCA has been nothing short of amazing, filled with opportunities for growth and connection.

By *Alice Joy G. Kemigisha.*

I am Cyprian Mulumba, a student doing health sciences at BCA Kampala currently. Speaking of my experience at BCA and the ODDS has really such an honor and pleasure. BCA isn't just a school but a community with caring and passionate administration that are willing to see their students achieve and go to greater heights in not only education but also widening their social capital. BCA also has a good surrounding of trees giving a comfortable environment of studying.

More of the school I would talk about would be the school schedule where there is allocated time for both the academics and sports that enables students to socialize and know each other best. Not forgetting the special days that is cultural day where we all come dressed representing our places of origin hence this gave me an opportunity to know what takes place in other cultures and how they originated.

On the other hand, I would advise one to join the OSSD curriculum because it gives a firm foundation for a student before they enroll for university and one spends a shorter time in school.

By *Cyprian Mulumba.*

## My transformative experience at BCA, Kampala

I joined Bronston Canadian Academy, Kampala as part of the January intake 2025. At the time, I thought that I'd have challenges with navigating through as a new student but that was not the case. I was welcomed by such a friendly and supportive school environment that have helped me not only in the academic sector but also in enhancing the person that I am today. Through the OSSD school program, to the diverse school activities and opportunities. I have become a more independent and responsible person. BCA has not been just a school but a place I consider family because it has taught me various life skills such as critical thinking, problem-solving and public speaking skills all of which are going to be extremely helpful to me as I pursue my future goals.

By *Nagginda Bellinda.*

## My Journey from Cambridge to OSSD at BCA

Six months ago, I made a big change in my academic journey. As a former Cambridge Year 11 student, I was curious a little nervous about switching to the Ontario Secondary School Diploma (OSSD) curriculum. But looking back now, I can confidently say it was one of the best decisions I've made. The OSSD curriculum at Bronston Canadian Academy (BCA) has been an amazing experience for me. It focuses not just on exams, but also on developing critical thinking, research, and practical skills. I love how we are assessed in a variety of ways such as projects, presentations, tests, and assignments which gives everyone a fair chance to succeed and grow.

What makes BCA even more special is the school environment. From my very first day, I felt like I was part of a family. The teachers are incredibly supportive and always ready to help, both academically and personally. They make learning enjoyable and are always encouraging us to do our best. My classmates have also become great friends. We come from different backgrounds, but we support each other and share lots of good moments together.

Whether it's group work, school events, or just lunchtime chats, every day at BCA feels warm and welcoming, just like home. I'm truly grateful for the experience I've had so far at BCA. It has helped me grow, not just as a student, but as a person. I'm excited for the future, and I know I'm in the right place to achieve my goals.

# ALUMNI *spotlight* ZONE

**Congratulations to the Bronston Canadian Academy Class of 2025 on earning your OSSD!**

This is a huge milestone, and you should be proud of all your hard work. But remember—this isn't the end. As you step into university, whether in Canada or abroad, a new chapter begins. University won't be easy; it demands dedication, resilience, and perseverance. Your degree is something you'll have to earn through consistent effort, but trust me, the struggle will be worth it.

For those studying abroad, the challenges—homesickness, cultural adjustments, and academic pressure—can feel overwhelming. My advice? Stay connected with family and friends back home, but also build a support system at your new university. Join clubs, seek mentorship, and don't hesitate to use campus resources like academic advising or counseling. Time management and self-discipline will be your best tools—balance studies with self-care. Most importantly, remember why you started. You've got this!

Wishing you all success on this exciting journey ahead.

**Regards,**

*Zayn Mohammed.*

University of Florida, USA

# ALUMNI *spotlight* ZONE

Hey everyone!

I'm Zahra, a proud alumna of BCA who's now studying at the University of Central Florida in the United States , and I can confidently say that joining BCA was one of the best decisions I've ever made. The community is super supportive, and there are tons of opportunities to explore your interests. I made lifelong friends, unforgettable memories, and gained experiences that continue to open doors for me.

If you're thinking about joining BCA, do it! You won't regret it!

**Regards,**

*Zahra Batul.*

Hello Bronston family,

I am Baitwa Niesha, a former student of BCA, and I completed last year, 2024. I am currently studying at York University in Canada; I want to send my congratulatory message to the graduating class of 2025.

Congratulations to you for reaching this great milestone, it's never easy, it's a big achievement, and I encourage you to never lose hope because the next chapter of joining university you are going to take is going to be hard. There are lots of challenges at university, but you need to stay true to yourself because deep within you, you know what you want. You just need to keep up the spirit, don't lose hope, keep pushing hard, and don't forget to always pray to God for help.

**Best,**

*Baitwa Niesha.*

# BRONSTON CANADIAN ACADEMY KAMPALA *Moves to a New* LOCATION

We are excited to announce that Bronston Canadian Academy Kampala has officially moved to a new and more spacious location! In response to the steady growth in student enrollment and our continued commitment to providing a comfortable and enriching learning environment, we have relocated from our former premises at Plot 55 Kira Road, Kamwokya, to our new home just a short distance away at Plot 59 Kira Road, Kamwokya.

The new location offers expanded facilities to better accommodate our growing student body, allowing us to enhance both academic and extracurricular programs. Conveniently situated near notable landmarks such as Diamond Trust Bank (Kamwokya branch), Cavendish University Law School, and Kololo Polyclinic, our new campus remains easily accessible for students and parents alike.

We are grateful for the support of our parents, students, and the entire school community during this exciting transition. As we settle into this larger space, we look forward to continuing our mission of nurturing global learners and leaders in a vibrant, well-equipped environment.

# MENTAL HEALTH MATTERS: A MESSAGE *from Your* LECTURER

Dear Students,

You are not alone. Behind every bright smile on campus, many silently struggle with anxiety, stress, depression, or feelings of overwhelm—and that includes students, lecturers, and staff alike. University life brings real pressures: deadlines, finances, relationships, and personal identity questions. These challenges affect not just your performance, but your well-being. Mental health is not a side issue—it's central to your success and happiness. Good mental health is about how we think, feel, connect, and cope. Taking care of it isn't weakness—it's strength. If you're struggling, please talk to someone: a friend, counselor, lecturer, or family member. And remember to take care of your body and mind with rest, nourishment, movement, and joy. Together, let's break the silence and the stigma. As your lecturer, my door is open—not just for academics, but for conversations that matter. We must build a campus culture where mental well- being is treated with as much urgency as physical health. You are not defined by your grades or struggles; your worth runs deeper. Keep going, one step at a time. You are seen, you are valued, and help is always within reach.

Warm regards,

*Kayega Nicholas*

**Lecturer, Chemistry/Biology**

# WHY INTERNATIONAL *School?*

International schools in Uganda originated from the early influence of missionaries and colonial powers, offering an alternative to the traditional Ugandan education system. Today, parents are increasingly attracted to these schools for their globally recognized curricula, such as the Ontario Secondary School Diploma (OSSD, year 11 and year 12), Cambridge, and Pearson Edexcel, which em¬phasize academic excellence, holistic development, and global citizenship. Institutions like BCA Kampala that offer an international curriculum equip students with critical thinking skills, cultural awareness, and the adaptability needed to thrive in a diverse, interconnected world. International educa¬tion is not about abandoning local values but expanding students' horizons to prepare them for a future full of global opportunities. With smaller class sizes, highly qualified teachers, and modern facilities, international schools foster inquiry-based learning and a strong understanding of current world events, often shaped by the diverse student population. Ultimately, they prepare learners to become engaged, informed, and compassionate global citizens ready for top universities and international careers.

**Best Regards.**

*By Mr. Adam Ssebunya.*

# NAVIGATING UNIVERSITY APPLICATIONS: A GUIDE FOR INTERNATIONAL STUDENTS

As the academic journey draws to a close for our high school seniors, the transition to university lies ahead. For students considering studying abroad, understanding the application process is key to making informed decisions that align with both academic ambitions and financial realities.

## Application Requirements

While specific requirements vary by country and institution, most universities expect the following:

- Academic Transcripts: Your grades from high school, particularly your senior years.
- Standardized Test Scores: OSSLT (for Canada), SAT/ACT (for the USA), or language proficiency tests like IELTS/TOEFL for non-native English speakers.
- Personal Statement or Essay: A reflection of who you are, your goals, and why you want to study at a particular university.
- Letters of Recommendation: Usually from teachers or school counselors.
- Extracurricular Activities: Leadership roles, volunteer work, clubs, or sports can boost your application.
- Proof of Finances: To show you can cover tuition and living expenses, especially for visa applications (The parent should be able to meet the tuition and lodging for the 1st year).

## Affordable Universities by Region

Affordability is a major factor in choosing a university. Below are some institutions known for their quality education and reasonable tuition:

**USA**

The USA has a wide range of institutions, and many offer generous scholarships for international students.

• University of South Dakota – Tuition: Approx. USD 20,942/ year

• University of Kansas – Tuition: Approx. USD 25,000/year

• University of Florida – Tuition: Approx. USD 28,660/year

**Europe**

Many European countries offer low or even free tuition in English-taught programs.

• University of Debrecen (Hungary) – Tuition: Approx. EUR 10,000–15,000/year

• University of Warsaw (Poland) – Tuition: Approx. EUR 8,000–12,126/year

• University of Central Lancashire (England) – Tuition: Approx. POUND 15,950–17,950/year

• Teesside University (England) – Tuition: Approx. POUND 17,000/year

**Tips for a Smooth Application Process**

• Start Early: Begin research and preparations at least a year in advance.

• Seek Guidance: Work with your school counselor or a study abroad advisor.

• Apply Broadly: Apply to a mix of safety, match, and reach schools.

• Time. The application process typically begins at least six months in advance. This timeframe allows enough room to complete both university admission and student visa procedures without delays.

Studying abroad is not just about earning a degree; it's about personal growth, global exposure, and building a future without borders. Start the journey with knowledge, confidence, and curiosity
